OUR VISION

Our company is guided and reminded constantly of the vision laid by the founders of this organically grown company. This vision identifies our aspirations and outlines our key differentiators.

Offer a challenging and a dynamic work environment for our employees, where they challenge each other to get better while maintaining the interests of the company and the common goal

Be at the forefront of developing innovative solutions to the challenges that impact our business and the environment.

Create a legacy of positive social, economic and physical impacts for all stakeholders.

Sustain and enhance our already pre-eminent reputation within the industry.

OUR VALUES

But with Safety

We maintain an ever-increasing emphasis on workplace safety. Our company promotes a culture of caring- for those working with us, around us, for our environment and for our society. We try to be at the forefront of implementing and even developing safety best practices.

Sustainability

We leave a positive legacy for the people we work with, the communities we work in, and the world in which we operate. We want to enhance our impact on the environment, working with our supply chain partners, customers and communities to ensure our choices are sustainable.

Cost-competitive innovation

Our clients demand cost-competitive solutions. Every day we strive to establish methods and procedures aimed at increasing our productivity at site and in the office. We continually invest in new tools that allow us to drive cost and schedule certainty and to optimize efficiency. Our connections with the most cost-efficient suppliers globally enable our clients to enjoy the most cost-effective solutions without having to compromise on quality.

Quality and Speed

Springing from humble roots, the company's biggest strength remains timely delivery with the best possible quality standards. At all levels of our organization, there is close monitoring on the daily (and sometimes even hourly) progress of works at the site level. The targets are set stringently and followed meticulously.

Integrity

We remain committed to achieving corporate governance standards and ethical business practices that meet the highest possible levels of integrity and compliance, no matter what the cost. Compromising on ethics is most definitely a no-go.

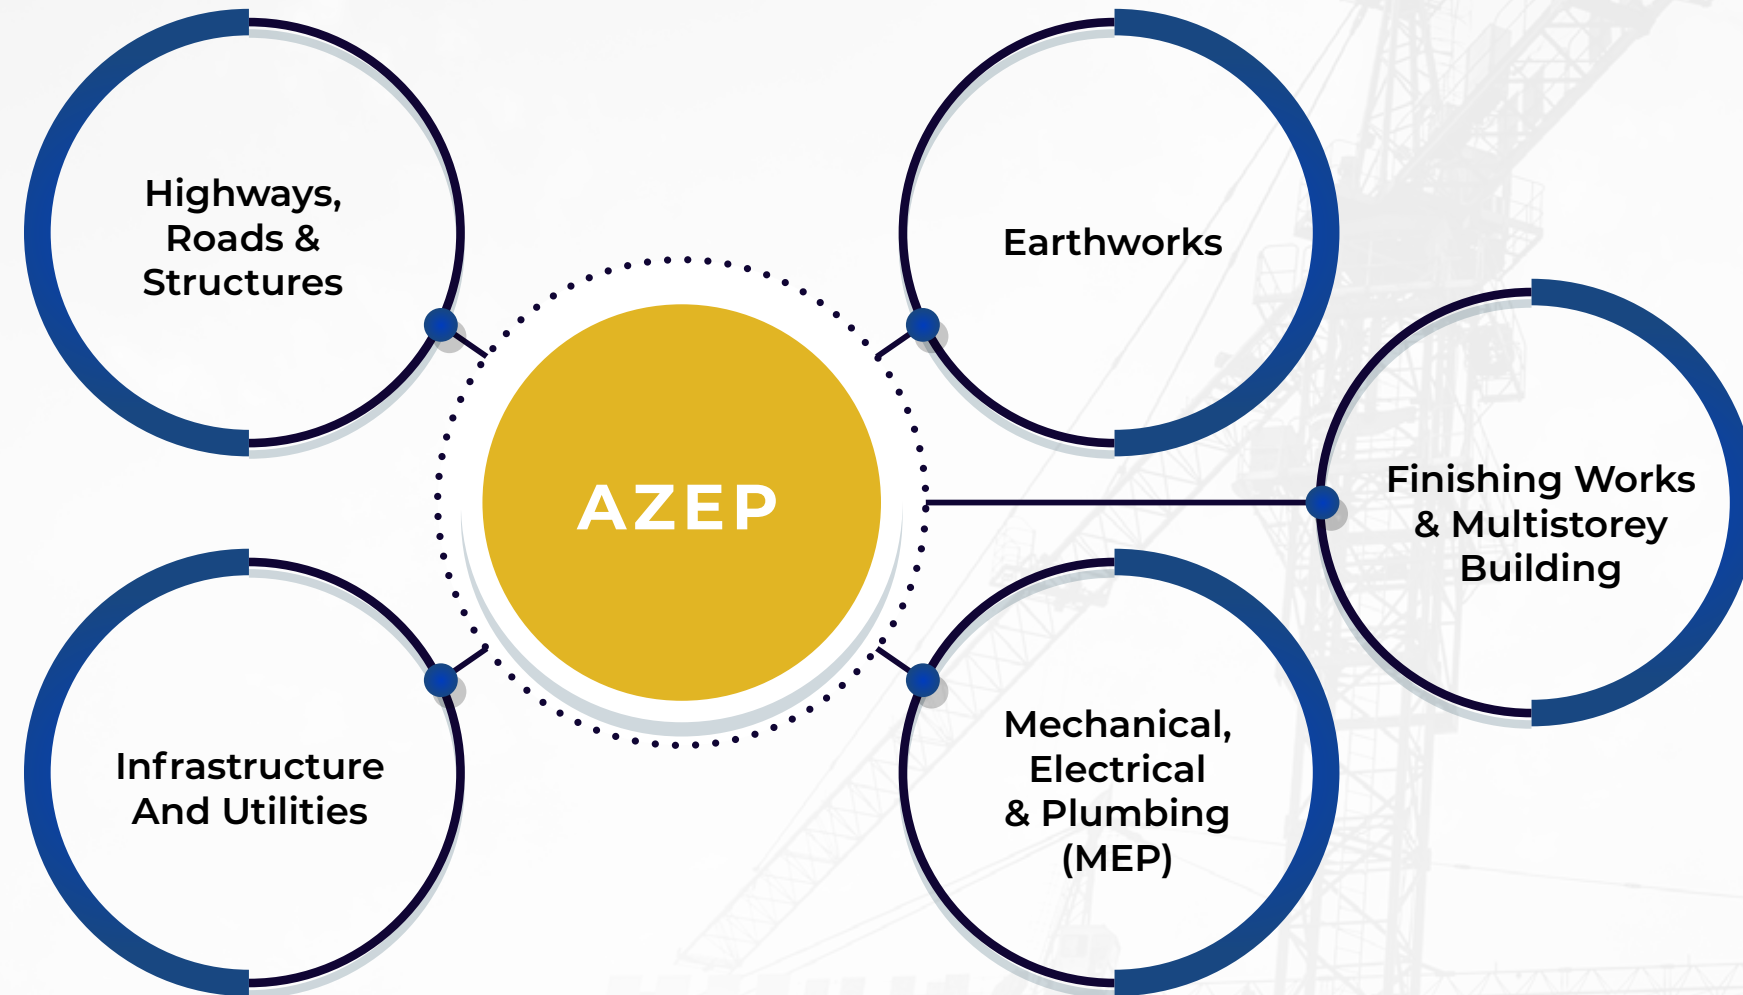

MAJOR SERVICES & AREAS OF EXPERTISE

- » Roadworks including all earthworks and associated structures
- » Bridges and underpasses (Post tensioned Slab, Box Girders, Arch Bridges & Integrated spans)
- » Box Culverts and Rigid Pavements
- » Retaining Walls (Mechanically Stabilized Earth Walls, RCC Retaining walls & Geogrid Walls)
- » Multi-story Buildings (Commercial & Residential with complete MEP solutions)
- » Residential Villas (All type of Housing Units)
- » Data Centres and/or cable landing stations
- » Protection Works (Safety Barriers, Guardrails, Cut off Walls, Riprap, Gabions, Ditches & Slope Protection)
- » Softscape and Hardscape Works
- » Industrial projects (warehouses, power plants infrastructure and pipelines)
- » Infrastructure modification and development with a strong grip on utilities relocation and laying
- » Dams (embankment, concrete core and asphalt core)

Our construction services comprise the full range of building and refurbishment activities, providing a complete project delivery solution that radically reduces interface risk. We have built an outstanding reputation concrete infrastructure works based on developing distinctive solutions and in-house training, that accelerate the construction process thereby and delivering to clients in record times.

THESE MULTITUDE OF SERVICES ARE DEALT WITH BY OUR SPECIALIST TEAMS UNDER OUR IN-HOUSE DIVISIONS:

We as a company and team take pride in the fact that we have come from very humble beginnings- building this organization brick by brick. None of this could have been possible without the dedication, skill and integrity of our team, and we owe all our success to the **5,000+** ladies and gentlemen who have paved the way for where AZEP stands today over our **30+ years of history**. I also take this opportunity to thank all our clients and associates without whose trust and support we would not be where we are today.

Today we have the distinguished recognition in the Sultanate of Oman to be one of the companies that have completed and handed over 100+ successful projects of various scales and sectors. Another feather in our cap is that AZEP has constructed the highest number (**over 70**) bridges in Oman, more than any of our competitors.

At AZEP, there are continuous efforts to ensure that our employees are involved with a company that delivers excellence, is trusted, and provides room for professional growth. It is vital to remember that success requires the highest standards of corporate ethics towards everyone we work with, the communities we serve, and the environment we impact. We aim to build a culture that ensures the values which remain the foundation of our company remain intact and are only strengthened over time. This is the path we have chosen to tread for the foreseeable future towards sustainable, profitable growth whilst creating long-term value for all stakeholders.

The past few years in business globally have been more challenging than ever, and the onset of the pandemic COVID-19 has only made matters more abstruse. We at AZEP have welcomed and embraced this challenge as an opportunity. It has enabled us to reevaluate and modify our business in a manner that we are able to offer our clients more superior and safe solutions, at even more competitive and affordable costs.

We strongly believe that any company that wishes to sustain in a society has to do so responsibly and has a duty to “give back” to it. The major operations of AZEP remain in the Sultanate of Oman and thus it has our highest regard and respect. AZEP aims to be in full agreement with the **Oman 2040 vision** which places a strong emphasis on the In-country Value and Omanisation policies of the Sultanate. We don’t only treat these as requirements of the law but take extra steps and measure to ensure that we invest in training, developing, promoting and harnessing local talent and SMEs.

We look at the years ahead of us with renewed energy, enthusiasm and resolve while staying committed to our core values of Excellence, Quality, Speed, Safety and Integrity. We are certain that by keeping at this path we will reach new heights and constantly keep improving the services we so proudly provide.

QHSE POLICY

AZ Engineers & Partners LLC (AZEP) is committed to providing our clients with high-quality engineering, procurement, and construction services, ensuring excellence in all aspects of Quality, Health, Safety and Environment Standards.

We are committed to fostering active engagement among employees and stakeholders in management processes, while continuously enhancing our QHSE culture. Our approach includes monitoring, measuring, identifying, analyzing, and promptly addressing QHSE risks and opportunities.

We are committed to taking responsibility for identifying and mitigating hazards and risks to prevent work-related injuries, health issues, fatalities, and damages to assets. This includes considering the nature, scale, and environmental impacts of our activities, products, and services.

In this excellence pursuit, we dedicate ourselves to achieving the following objectives which align with the intent of the policy.

- Ensure the highest levels of QHSE performance are upheld consistently.
- Demonstrate visible and active leadership that engages employees and stakeholders and manages QHSE performance as a line responsibility with clear authorities and accountabilities.
- Comply with the Law/Legal, regulatory and other requirements of the countries where we operate associated with QHSE aspects of products and processes handled
- Protect the environment, prevent pollution, enhance customer satisfaction and strive for continual improvement.
- Mitigate and minimize the occurrence of ill health, injuries, and incidents throughout all operations and locations.
- Provide resources, invest in technology and develop necessary competence & awareness amongst staff/ interested parties to contribute towards quality of workmanship, employee Health & Safety and preserving the environment.
- Measure & Audit Quality, Health and Safety objectives; ensure corrective actions as applicable.
- Ensure effective communication, participation & training with workmen, stakeholders & interested parties to improve the effectiveness of the QHSE system.
- Establish regular schedules for the preventive maintenance of equipment, machinery, utilities, and vehicles.
- AZEP ensures that our services consistently meet the highest quality standards for customers. Customer satisfaction is continuously monitored, documented, reviewed, and analyzed to identify any gaps in meeting customer expectations.

All personnel and stakeholders involved with or representing AZEP share the responsibility of acting protectively to safeguard individuals, the public, and the environment from potential harm.

AZ Engineers & Partners LLC (AZEP) management will ensure that the policy is effectively communicated, regularly reviewed, accessible to all interested parties, and consistently relevant and appropriate to our operations.

DRUG & ALCOHOL POLICY

AZ Engineers & Partners L.L.C. is committed to developing a safe, healthy, and productive workplace for all employees, contractors, and visitors. To achieve this goal, the organisation strictly prohibits the use, possession, distribution, or influence of drugs and alcohol in the workplace and company properties. This zero-tolerance policy is essential to protect employee well-being, uphold professional standards, and ensure compliance with legal and regulatory obligations.

STATEMENT

Scope:

This Policy applies to **all individuals** employed by or connected to AZEP, including full-time, part-time, temporary, and subcontractor personnel.

Policy Objectives:

- Ensure the health, safety, and welfare of all employees, contractors, clients, and visitors by minimising the risks associated with substance misuse in the workplace.
- Protect the organisation's ability to function efficiently and responsibly by preventing accidents, errors, and misconduct related to drug or alcohol impairment.
- To fulfil all applicable local laws of the Sultanate
- Uphold the organisation's image and credibility by maintaining high standards of professional conduct and accountability.

Prohibited Conduct:

The following conduct is strictly prohibited and will result in disciplinary action, up to and including termination of employment or engagement:

- Reporting to work or being present at any worksite under the influence of alcohol, illegal drugs, or controlled substances.
- The use, possession, sale, transfer, manufacture, or distribution of illegal drugs or drug paraphernalia on company property or during working hours.
- Consumption or possession of alcohol on company premises during or after working hours.
- Refusal to undergo drug or alcohol testing as required under this policy.

ANTI-BRIBERY AND CORRUPTION POLICY STATEMENT

AZ Engineers & Partners L.L.C. is a highly respectable and recognisable organisation. It has gained its name and reputation among its competitors and consumers through its commitment to conducting business according to moral, ethical, and legal standards. The Company does not allow or tolerate any kind of bribery and corruption.

This Policy applies to:

- All Directors, Direct & Indirect Employees, and Sub-contractors, etc.
- Third parties acting on our behalf (Consultants, suppliers, partners)

We prohibit:

- Offering, giving, or receiving bribes, kickbacks, or improper payments
- Providing gifts, hospitality, or favors to gain an unfair business advantage
- Making facilitation payments to officials
- Using third parties to engage in corrupt practices

GIFTS & HOSPITALITY

Gifts or hospitality must:

- Be reasonable and not intended to influence decisions
- Be transparently recorded and pre-approved if above the defined threshold

RESPONSIBILITIES

Everyone at AZ Engineers & Partners is responsible for:

- Preventing, identifying, and reporting bribery or corruption
- Refusing to participate in or condone unethical behaviour
- Completing all required anti-bribery training

REPORTING & ENFORCEMENT

Suspected violations must be reported immediately to:

- Your line manager or to the higher Management
- Our Legal Dept/Representative

Breach of this Policy may lead to disciplinary action, including termination, and may result in criminal prosecution.

COMMITMENT

AZ Engineers & Partners L.L.C. will continue to review, update, and enforce this Policy to ensure our culture remains one of integrity, accountability, and compliance.

DRIVING POLICY

At AZ Engineers & Partners L.L.C., we are dedicated to minimising the risk of work-related road traffic incidents by promoting safe and efficient transportation practices across all company operations. Our goal is to protect both our employees and the public from potential harm associated with work-related driving activities.

This Policy applies to **all employees** who operate a vehicle for work purposes—whether it is a personal vehicle, a company fleet vehicle, or one rented on behalf of the company—and should be reviewed in conjunction with the Company's Driving Guidelines.

STATEMENT

Scope:

This Policy outlines the core values that direct our daily activities and sets clear expectations for how management, employees, contractors, clients, visitors, and representatives of the Company should conduct themselves by legal requirements and all relevant company policies, procedures, and standards. It is designed to be inclusive and applies equally to everyone connected to the Company, without any form of discrimination.

Policy Objectives:

- Promote a culture of responsible driving by requiring all employees to adhere to safe and courteous driving practices at all times.
- Ensure all company vehicles are regularly serviced and well-maintained to uphold safety standards, support environmental responsibility, and protect the well-being of all road users.

Our Responsibilities:

We are committed to ensuring the highest standards of vehicle safety and will never require employees to operate vehicles under unsafe conditions. To support this commitment, we will:

- Procure vehicles that are purpose-built, reliable, and meet high safety specifications.
- Follow manufacturer-recommended schedules for regular servicing and maintenance.
- Promptly address and resolve any reported vehicle issues or defects.

Oman's tallest dam project set for July 2024 completion

CONRAD PRABHU
PUBLISHED: 7:30 PM, AUG 11, 2023

MUSCAT - Work on a major flood protection scheme is making headway overlooking Salalah City in Dhofar Governorate.

Completed by around July 2024, the soaring dam structure will help secure key economic installations, notably the Port of Salalah, Salalah Free Zone, and Raysut Industrial City, from severe flooding of the kind that ravaged parts of the governorate in years.

CONSTRUCTION OF A FLOOD PROTECTION DAM AT WADI ADAWNIB (A1B) IN WILAYAT SALALAH – DHOFAR GOVERNORATE

FLOOD PROTECTION DAM (A1B) FOR WADI ADAWNIB IN DHOFAR REGION- EARTHFILL DAM WITH ASPHALTIC CORE, 68M HIGH

CLIENT: Ministry of Agriculture, Fisheries Wealth & Water Resource

CONSULTANT: Mahab Ghodds- Al Abraj

MAIN CONTRACTOR: AZ ENGINEERS & PARTNERS LLC
in a JV with Portex-Eksen-NTF Insaat Turkey

COMPLETED : DECEMBER 24

PROJECT VALUE:

OMR **23,903,015**

**DIVERSION CULVERT BELOW
THE DAM ON THE RIGHT SIDE
OF THE RIVER- 307M LONG,
4.8M X 5.6M CROSS SECTION,
WITH A CAPACITY OF 240 M3/S**

SCAN HERE

INTAKE TOWER- STANDING AT A STAGGERING 70M TALL, THIS WILL BE THE 2ND TALLEST CONCRETE STRUCTURE IN OMAN!

**SPILLWAY 80M LONG WITH
AN ELEVATION OF 156M**

**DAM BODY WITH ASPHALT
CORE- 1ST IN OMAN; 124 MILLION
M3 STORAGE CAPACITY OF THE
RESERVOIR WHICH WILL BE THE
HIGHEST CAPACITY IN OMAN.
2ND TALLEST DAM IN OMAN
APPROX. 70M TALL.**

DAMS

السعة التخزينية للسد ٧١٥٠٠٠ متر مكعب
RESERVOIR CAPACITY: 715,000 CUBIC METER

CONSTRUCTION OF A RECHARGE DAM AT WADI SAL IN WILAYAT JALAAAN BANI BU ALI - SOUTH SHAR QIYAH GOVERNORATE

PLASTIC CONCRETE CORE DAM, APPROX. 10M HIGH AND 700M LONG

CLIENT: Ministry of Agriculture, Fisheries Wealth & Water Resource
